## CHOPPERTOWN - THE SINNERS

This documentary revolves around Sinners member Kutty Noteboom building an

early '60s style chopper. There's a strong sense of brotherhood in this tightly knitted motorcycle club, everyone helps each other. You get to see the Sinners fabricating and assembling parts at the shop, getting drunk at parties, cruising the sunny roads of California

and stopping at their buddies Jimmy White, Jason Jesse or Cole Foster... - all this filmed and edited to a professional standard, with a super sharp picture that really puts you in the action.
